solidation of the interests of the protectionists and the free silverites, many signatures being produced.

The scheme is to defeat the new tariff bill and give to the silver men, first, free coinage of silver upon the payment by the owners of seignorage absorbing three-fourths of the difference between the market (London) price of builton and its coined value; second, the prohibition of foreign silver for coinage purposes oxcept at a seignorage that will absorb all the difference between the market price and the mint value, and third, an international monetary conference including of true Americanism. Had this convention of true Americanism.

The claim is set up that the interests of silver and protection are identical. The scheme is to unite the interests of silver and protection, and by this means prevent adverse tartif legislation and secure more liberal silver legislation. It is an alliance the suggestion of which is fraught with great possibilities, if it is practical, but its successful operation would mean the breaking down of party lines perhaps, and an entire readjustment of party politics.

This would include especially the nations of North and South America, Japan and China, and thers. These nations are as deeply interested as we in resisting an attempt to increase the power of gold through the degradation of the power of silver and many of them, particularly those of America and Eastern Asia and those to whom we may most easily and advantageously sell the excess of our manufacturing industries. Such conference tageously self the excess of our manufac-turing industries. Such conference should exclude England and Germany. Its coniusions without them would direct the money policy of the world, preserve the integrity of bimetallism, and prevent the culiavement of the United States and others by the capitalist classes of the two great creditor nations.

WASHINGTON, Sept. 28 .- In executive reselon this evening, after some debate, Voorhees reluctantly agreed to devote all of next Thursday to an executive session at which appointments in opposition to the home rule plank of the Democratic platform, against which there has been

such strenuous objections, will be considered. This agreement pleases the silver men immensely, as they regard it as snother point gained by them. If a quorum is present on Thursday, it is probable these appointments will be favorably acted upon by a strict party vote.
